Subject: Thank you for Mark M

Dennis and Marianne,

A quick note to express our appreciation for Mark MacIntyre's outstanding work at Unified Area Command in support of the Joint Information Center during the Gold King Mine response efforts. His contribution to our mission was invaluable. We quickly learned that we could rely on Mark's skills to get job done and did so often. He is intelligent (and witty), adaptable (and witty) and a talented professional (oh, did we say ... witty) – and a joy to have on the team.

Thank you for loaning him to us.

Regards,

Nancy Grantham and David Gray
